

## Call for 4<sup>th</sup> Annual 'We are Fed Up!' Demonstration in Berlin

Start: 18. January, 2014 - 11:00am

Place: Potsdamer Platz, Berlin

We are fed up with agribusiness! *Good Food, Good Farming for all!*

- +++ More than 840 million people go hungry worldwide every day
- +++ Rural farms are dying; every year 10,000 farms shut down in Germany
- +++ Germany alone imports food products equivalent to about 18 million hectares
- +++ Resistance to antibiotics from use in animal farming threatens our health
- +++ A free trade agreement between the EU and US could open the door to genetic engineering
- +++ Three multinational companies control 50% of the world's trade in seeds
- +++ One third of bee colonies in Europe and in the USA die every year

The impact of agro-industrial mass production is felt strongly by farmers, consumers and animals worldwide. European governments must act now to ensure a fair and responsible global agricultural policy.

We call for an end to client politics in the agribusiness! And for that, we need to protest.

On 18 January, 2014 we will hit the streets of Berlin with thousands of others from different corners of Europe, calling for environmentally friendly farming.

### ***We demand:***

- The global right to food and nourishment!
- Healthy, affordable food for all!
- Fair prices and market rules for farmers!
- Animal welfare without the abuse of antibiotics!
- Freedom for seed diversity!
- Farming that is friendly to the environment and to the bees!
- The promotion of regional food production
- Access to land for all (globally)

### ***An end to:***

- Hunger!
- Food scandals!
- The dying of rural farms
- Mass stalls!
- The proposed EU seed regulation!
- Monocultures!
- GMOs on the field and in stalls
- Landgrabbing by governments and investors

Citizens, farmers, beekeepers and gardeners, animal and environmental activists, citizen initiatives and one-world activists: Join us when we all protest in front of the Chancellery together!

Join the European movement and protest for good food and good agriculture for everyone!

**If you need a place to stay in or a ride to Berlin, we can help find something for you! Please get in touch early to let us know.**
